

(TOY-1966) TOYOTA TUNDRA MX / SW SERIES UPPER GRILLE INSTALLATION DETAILS

(TOY-1966) Toyota Tundra MX / SW Series Upper Grille

Products : TOY1966B , TOY1966S

Install Step #1:
Our project 2010 Toyota Tundra in need of a custom GrillCraft Grille. Will also fit Platinum & Limited Edition models.

Install Step #2:
Remove latch lever from grille as shown.

Install Step #3:
Remove the nuts located on the back side of the grille.

Install Step #4:
Use plastic pry bar in order to unclip the grille shell from the hood.

Install Step #5:
Remove grille shell from vehicle.

Install Step #6:
Remove hood latch bracket screws.

Install Step #7:
Remove hood latch bracket.

Install Step #8:
Remove the two plastic nubs using wire cutters.

Install Step #9:
Here is the GrillCraft hood latch extension bracket included with grille kit.

Install Step #10:
Attach latch extension bracket to the grille shell with screws in order to temporarily hold in place.

Install Step #11:
Platinum & Limited Edition models Notes: On the Platinum & Limited Edition Tundra marking the latch bracket is quite easy there is no need for steps #12 & #14 on the Plantinum Edition grille shell.

Install Step #12:
With the latch bracket in place mark latch bracket location using masking tape as shown.

(TOY-1966) TOYOTA TUNDRA MX / SW SERIES UPPER GRILLE INSTALLATION DETAILS

Install Step #13:

(TOY-1966) TOYOTA TUNDRA MX / SW SERIES UPPER GRILLE INSTALLATION DETAILS

Install Step #28:
Fasten grille with supplied screws and "flat" nuts.

Install Step #29:
The lower screw tip will come into contact with the metal support brace removed earlier. We will need to make a clearance for the screw tip into the metal support.

Install Step #30:
The metal support brace showing the area that needs a clearance hole.

Install Step #31:
Using a file or drill make a notch into the support bar as shown.

Install Step #32:
Reinstall the metal support brace as shown.

Install Step #33:
Remove factory upper grille shell trim.

Install Step #34:
Place GrillCraft upper insert into grille shell top opening. Mark the mounting stud locations onto the grille shell.

Install Step #35:
Drill hole for the upper grille mounting stud into the grille shell.

Install Step #36:
Enlarge the right & left existing hole using a round file.

Install Step #37:
Tape off and paint the top grille background area using "Flat-Black" spray paint.

Install Step #38:
The top grille area with background painted flat black.

Install Step #39:
Insert the GrillCraft top grille into the grille shell.

Install Step #40:
From the back side of the grille shell fasten top grille insert nuts.
